Ground Burial

Options for ground burial include single graves or lots composed of two or more graves. An illustration of an adult single monument grave is shown below.

Foundations

A monument foundation is an in-ground concrete base, required to maintain the stability of all monuments. Foundations are constructed by the cemetery in the designated monument space at the expense of the purchaser.

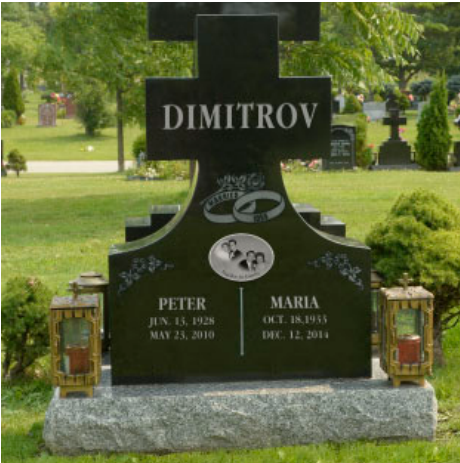

Outer Containers

Caskets or urns may be interred without an outer container. Should an outer container of concrete, steel, or other permanent material be used, a service charge will apply.
